

Sucka, 10 Second Break & In The Dark @ The Agincourt Rock Venue, Camberley (28th November 2003)

In The Dark were first up here, and they were all really good, with great music. The only problem was the microphones not being loud enough to hear the vocalist, apart from his occasional screams! Also, Timmy, you should not have been wasted while trying to sing!!! And good height on that jump off the stage too! Next up was 10 Second Break, who were also really good, with a good beat to dance to! No complaints there! Hooray For Me followed, and Leigh was an amazing guitarist! I enjoyed it, especially when you played eachothers guitars! Sucka now came on, and they were excellent as well, with a good cover song - I forget who did the original now! See, I'm the muppet Gordon! The overall turnout was quite good, but not the best I have seen there. Everyone had a good time, and would travel to see them all again!
